

SW Series

Subwoofer Unit

The Flepcher SW-Series Subwoofer Unit can offer a highly-efficient acoustic enhancement that provides the needed edge to lift your sound reproduction system to the next level. As a needed enhancement to your pro-sound system, the SW-Series works to improve the low-frequency response, stretching the system's response to as low as 35Hz. Powerful and constructed with acoustically superior material, this series puts forward two models namely: the SW-18 and SW-218 that offers endless possibilities to your acoustic system.

Features

- Constructed with high quality low-frequency driver, and sports a 100 mm voice coil
- An enclosure made of 18 mm plywood provides extra durability and sound performance for this unit
- Equipped with protection circuit that ensures the frequency driver is safely protected against excess power
- This unit is shielded from physical damage, thanks to its 18 gauge perforated, steel grill

Specifications

	SW-18	SW-218
System Type	18" Subwoofer	2 X 18" Subwoofer
Frequency Ranger	38Hz – 500Hz	35Hz-500Hz
SPL 1W/1M	100dB	102dB
Max. SPL	127dB	133dB
Rated Power Capacity, RMS	600W/RMS	1200W/RMS
Power (Max.)	1200W/RMS	2400W/RMS
Connections	2 X Speakon Inputs	2 X Speakon Inputs
IMP	8ohms	4ohms
Dimension (W X D X H)	526 X 895 X 787	1030 X 870 X 690
Weight	64 kg	104.5 kg
