

# Novaecho-Series

## PROFESSIONAL LOUDSPEAKER

CS-12

CS-15

CS professional loudspeaker series offers great versatility being able to respond to high range of frequency. The CS professional loudspeaker series is a reliable series being designed for heavy-duty performances. It is built to withstand high power during operation, delivering punches without compromising on the quality and endurance. Suitable for installation in places such as school hall, meeting room, event or seminar premise, entertainment outlet and other premises that require powerful music quality.

### Product Features

- Equipped with good quality compression driver (Ferro fluid cooled) and titanium diaphragm that improve high-frequency performance as well as system reliability
- High voltage capacitors and inductors with massive core and heavy gauge wire
- Lightweight with ABS material enclosure and improved low-frequency performance
- Protected high-frequency driver from excess power without a compromise on the sound quality
